dp-lamination

A world of decor to explore

Decorative Panels Lamination decor range comprises the latest woodgrain, unicolour and fantasy designs developed in conjunction with the leading printers in the world.

Constant design innovation and trend analysis has resulted in a collection of designs that will inspire and enable manufacturers and specifiers in the challenge of an ever-changing market place. When you add the vast range of substrates available in various widths and thicknesses, with foils available ex-stock, the dp-decor range becomes unrivalled in the industry.

Substrates

Chipboard and MDF substrates are available in thicknesses ranging from 2mm up to 45mm, widths of 1220mm, 1830mm, and 2050mm and over 100 different board lengths.

Specifically developed for the leisure industries, Decorative Panels Lamination's plywood offer is very extensive. Combining strength and lightweight benefits with a comprehensive and diverse range specification, plywood remains the material of choice for many such applications.

Unique to the UK, Decorative Panels Lamination offers the sheet production of a groundbreaking hollowcore product that is branded

dp-lite. Manufactured with 5mm MDF skins that make the use of standard furniture fittings easy, and in thicknesses ranging from 22mm to 100mm, this product offers weight savings compared to chipboard of over 60%.

Facing with plywood instead of MDF has brought new market potential for dp-lite, particularly in the leisure industry where weight is so important.

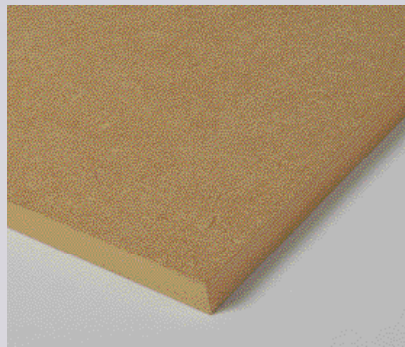

Plasterboard for use in the temporary and portable accommodation sector is a substrate that Decorative Panels Lamination are able to offer laminated in a wide variety of surface decors.

Chipboard

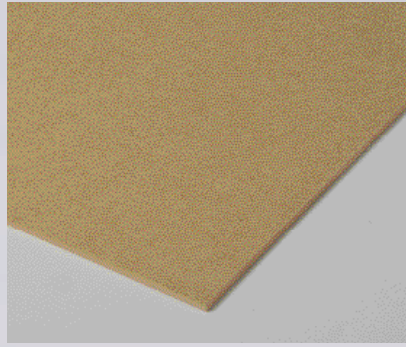

Manufactured to E1 P2 standard
Over 100 board sizes available

Thickness range: 8mm to 30mm
Width options: 1220mm / 1830mm / 2050mm
Length range: 2050mm to 3660mm

Medium Density Fibreboard (MDF)

Manufactured to E1 standard
Thickness range: 8mm to 45mm
Width options: 1220mm / 1830mm / 2050mm
Length range: 1830mm to 3660mm
Grades available: Standard / Deep Router / High Density / Moisture Resistant

Thinboard

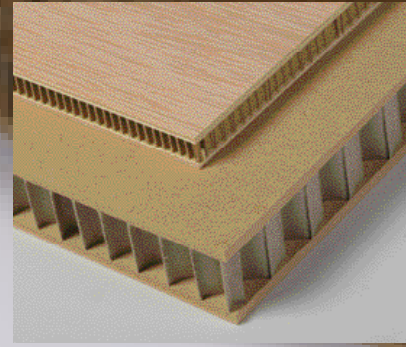

Manufactured to E1 standard
Thickness range: 2mm to 6mm
Width options: 1220mm
Length range: 1830mm to 3050mm

Plywood

Thickness range: 2.4mm to 25mm
Width option: 1220mm
Length range: 2135mm to 2440mm
Grades available: SuperLite Far
Eastern Plywood
Thin Overlay Plywood
MDF Faced Far

Eastern Plywood

dp-lite hollowcore MDF skin

Thickness range: 12mm to 100mm
Width options: 1050mm / 1220mm
Length range: 2120mm to 2440mm
Skin thickness: 3mm & 5mm

dp-lite hollowcore Plywood skin

Thickness range: 12mm to 22mm
Width option: 1220mm
Length option: 2440mm
Skin thickness: 3mm

acacia

Acacia surface finishes are in increasing demand due to their beautiful honey colours, ranging from light to darker red tones, the colours embrace the warmth associated with the species' native landscapes.
