Introducing
dp-limitless

dp-limitless is a range of specialised decorative and high performance products available in a limitless number of possibilities. There is no commitment to purchasing in bulk, the offer is deliverable from single sheets up to full load quantities – from stock.

dp-limitless provides a limitless offer of surface finishes bonded with a high strength PUR glue line to the substrate of choice.
Surfacing materials including various HPL laminate collections, Senoplast acrylics, 2mm Senoplast acryl glass, RAUVISIO Rehau crystal collections, textured surfaces, real stone veneers, faux leathers, natural wood veneer laminates, technical surfaces and of course unique.

The dp-limitless collection comprises one off surface finishes providing contemporary and traditional bespoke surface solutions, all manufactured in the UK.

available in quantities
as little as one board

stone

Real Stone Veneers are an innovative product made from a thin layer of stone, either quartzite or slate, which are nominally 2mm thick. All have a resin reverse that is bonded with a high performance PUR adhesive to the substrate. As with all natural products each sheet is unique and will display many different aspects of the stone structure. The surface is pre-sealed meaning no further surface protection is needed. A cost effective, lightweight and innovative solution that replaces the need for a solid stone product. Available as standard in sheet size 2440 x 1220mm in thicknesses from 9 to 25mm MDF and sheet size 2440 x 1220mm dp-lite hollowcore in a variety of thicknesses.

Due to the fact that stone is a natural product, each veneer may be considered as unique. Therefore, for stone veneers, colour shade and construction (structure) may change from batch to batch and even from panel to panel, being this a property of natural stone. For veneers, features such as islands and valleys are not considered as defects, but as part of the decor.
