

ϕ -substrates

Chipboard

Manufactured to E1 P2 standard

Over 100 board sizes available

Thickness range: 8mm to 30mm

Width options: 1050mm / 1220mm /
1830mm / 2050mm

Length range: 1830mm to 4900mm

Medium Density Fibreboard (MDF)

Manufactured to E1 standard

Over 45 board sizes available

Thickness range: 8mm to 45mm

Width options: 1220mm / 1830mm /
2050mm

Length range: 1830mm to 3660mm

Grades available: Standard / Deep
Router / High Density
/ Moisture Resistant

Thinboard

Manufactured to E1 standard

Thickness range: 2mm to 6mm

Width options: 1220mm

Length range: 1830mm to 3050mm

substrates for every application

-lamination

Plywood

Thickness range: 2.7mm to 25mm
Width option: 1220mm
Length range: 2135mm to 2440mm
Grades available: UltraLite Ilomba
 faced Poplar 5 Ply /
 UltraLite Poplar faced
 5 Ply / SuperLite Far
 Eastern 5 Ply /
 Thin Overlay Plywood

dp-lite hollowcore MDF skin

Thickness range: 22mm to 100mm
Width options: 1020mm / 1220mm
Length range: 2010mm to 2440mm
Skin thickness: 5mm

dp-lite hollowcore Plywood skin

Thickness range: 12mm to 22mm
Width option: 1220mm
Length option: 2440mm
Skin thickness: 3mm

Plasterboard

Gypsum based constructional panels
Thickness range: 9mm to 15mm
Width option: 1200mm
Length range: 1850mm to 2750mm

dp-substrates

Chipboard and MDF substrates are available in thicknesses ranging from 2mm up to 45mm, widths of 1220mm, 1830mm, and 2050mm and over 100 different board lengths.

Specifically developed for the leisure industries, Decorative Panels Lamination's plywood offer is very extensive. Combining strength and lightweight benefits with a comprehensive and diverse range specification, plywood remains the material of choice for many such applications.

Unique to the UK, Decorative Panels Lamination offers the sheet production of a groundbreaking hollowcore product that is branded dp-lite. Manufactured with 5mm MDF skins that make the use of standard furniture fittings easy, and in thicknesses ranging from 22mm to 100mm, this product offers weight savings compared to chipboard of over 60%.

Facing with plywood instead of MDF has brought new market potential for dp-lite, particularly in the leisure industry where weight is so important.

Plasterboard for use in the temporary and portable accommodation sector is a substrate that Decorative Panels Lamination are able to offer laminated in a wide variety of surface decors.
